Projects:

NSTEE — Premium T-Shirt E-commerce Website: Developed a full-stack e-commerce platform for a premium T-shirt brand using Django, Django REST Framework, PostgreSQL, Redis, Next.js, Zustand, and MUI. Built scalable backend APIs, integrated frontend components, optimized performance with caching strategies, and implemented a responsive shopping experience with modern UI design.

AR Interiors — Interior Design Portfolio Website: Created a professional interior design portfolio website using React.js, HTML, CSS, JavaScript, Bootstrap, and SCSS. Developed responsive layouts, interactive sections, and visually engaging pages to showcase company services, projects, and design work with improved user experience.

DPT Hub — 360° Digital Agency Website: Developed a professional 360° digital agency portfolio website using React.js, SCSS, JavaScript, HTML, and CSS. Designed reusable components, responsive interfaces, and engaging UI sections to showcase digital marketing services, creative solutions, branding, and company projects while focusing on performance optimization and seamless user experience.

ABBuildCon India — Construction & Architectural Website: Built a dynamic construction and architectural portfolio website using Next.js, HTML, CSS, JavaScript, Swiper, and Slick Slider. Integrated Supabase PostgreSQL and Storage for managing projects, images, and website content through API-based architecture with an admin panel for real-time updates.

Addclan — Digital Marketing Agency Website: Developed a digital marketing agency website using Next.js, React.js, JavaScript, GSAP, Swiper, Lenis, and Framer Motion. Built responsive UI, smooth animations, PWA features, and optimized performance with Vercel deployment to showcase advertising, branding, SEO, and marketing services.

Elmas Group — Real Estate Company Website: Developed a real estate website using Next.js, JavaScript, GSAP, Swiper, and Lenis. Built responsive layouts, smooth animations, and optimized frontend performance with Nginx deployment on Ubuntu for a seamless property showcase experience.

Vikram Mills Ads Platform — FMCG Advertising Interface (Freelance Project): Developed an FMCG advertising platform as a freelance project with a responsive interface to showcase products and campaigns. Implemented interactive navigation, optimized performance, and a smooth user experience for better customer engagement.

Adore Real — Real Estate Lead Generation Ads Page: Developed a real estate lead generation ads page with responsive layouts, interactive UI, and optimized design to showcase properties and capture customer inquiries.

Rudra Theme — Real Estate Website Theme (In Development): Currently developing a modern real estate website using Next.js, React.js, GSAP, Swiper, Lenis, and Lucide. Building responsive layouts, reusable components, smooth animations, and optimized performance for showcasing properties and services.

PowerOn Electrotech — MEP Company Website (Freelance Project): Developed an MEP company website using React.js and Tailwind CSS with responsive layouts, service sections, project showcases, and optimized performance deployed on Vercel.

Kiloi Foods — WordPress DevOps & Migration: Managed website migration, domain transfer, and server deployment for Kiloi Foods. Configured WordPress on Ubuntu VPS with Apache and MySQL, ensuring secure migration, zero data loss, and optimized production setup.
